1. BACKGROUND

The European Defence Agency was established on 12 July 2004, and is governed by Council Decision (CFSP) 2015/1835 defining the statute, seat and operational rules of the European Defence Agency. The Agency has its headquarters in Brussels.

The main task of EDA is to support the Council and the Member States in their effort to improve the Union's defence capabilities in the field of crisis management and to sustain the Common Security and Defence Policy (CSDP) as it currently stands and as it develops in the future.

The Agency is structured into four directorates. The Corporate Services Directorate (CSD) and three operational directorates: Industry, Synergies and Enablers (ISE); Capability, Armament & Planning (CAP); Research, Technology and Innovation (RTI).

2. THE AGENCY'S WAY OF WORKING

The Agency is an "outward-facing" organisation, constantly interacting with its shareholders, the participating Member States, as well as with a wide range of stakeholders. It works in an integrated way, with multi-disciplinary teams representing all of the Agency's functional areas, to realise its objectives. Its business processes are flexible and oriented towards achieving results. Staff at all levels need to demonstrate the corresponding qualities of commitment, flexibility, innovation, and team-working; to work effectively with shareholders and stakeholder groups, formal and informal; and to operate without the need for detailed direction.

3. PURPOSE AND SCOPE OF THE TRAINEESHIP

EDA's traineeship programme is addressed to university graduates, including those who, in the framework of lifelong learning, have recently obtained a university diploma and are at the beginning of a new professional career.

The aim of EDA's traineeship programme is:

- to introduce recent graduates to the professional world and enable them to apply knowledge acquired during their studies, particularly in their specific areas of competence.
- to create a pool of young people with first-hand understanding of EDA's mission and activities.
- to enrich the work of EDA with a fresh point of view and up-to-date academic knowledge.
- to promote European integration and create awareness of European citizenship in a multi-cultural and multilingual environment.

While at EDA, trainees will be working side by side with motivated and highly qualified experts coming from the participating Member States and they will have the opportunity to contribute to specific projects within the Agency.

4. THE CAPABILITY, ARMAMENT AND PLANNING DIRECTORATE (CAP)

The Capability, Armament & Planning Directorate (CAP) proposes collaborative opportunities in support of EU capability development priorities. The Directorate is responsible for capability development planning, based on analysis of military requirements conducted together with Member States within the Capability Development Plan (CDP).

The Directorate coordinates in-house the implementation of the Coordinated Annual Review on Defence (CARD), for which the Agency provides the secretariat, establishing a regularly updated overview of the European defence capability landscape.

The CAP Directorate implements EDA's secretariat functions to the Permanent Structured Cooperation (PESCO), together with the European External Action Service, including the EU Military Staff. Within the PESCO secretariat, the Directorate coordinates EDA's assessment of PESCO project proposals from the capability perspective, as well as the National Implementation Plans of PESCO participating Member States, and supports PESCO project implementation.

Based on coordinating the results of CDP, CARD and PESCO, the Directorate plans and prepares activities tailored to Member States' needs. These activities span from advice and roadmaps to collaborative capability development projects, including the support to Member States in upstream EDIDP/EDF.

The CAP Directorate comprises six Units with the following key areas of activity:

- Air Domain Unit: Remotely Piloted Aircraft Systems, Air-to-Air Refueling, Airlift
- Cooperation Planning Unit: CDP, CARD, Defence Data
