

THE EUROPEAN PEACE FACILITY

In an era of strategic competition and complex security threats, the European Peace Facility (EPF) expands the EU's ability to provide security for its citizens and its partners. It enables the EU to provide all types of military equipment and security infrastructure to EU partners, in compliance with the highest human rights standards.

Investing in peace and security

The EPF **maximises the impact, effectiveness and sustainability** of overall EU external action in peace and security:

delivery of military equipment and security infrastructure

a rapidly deployed support to EU partners

respect of highest International Human rights standards

**€5 BILLION
(2021-2027)**

The EPF is a **fund worth €5 billion** financed outside the EU Budget for a period of seven years (2021-2027), with a **single mechanism** to finance all Common Foreign and Security Policy (CFSP) actions in military and defence areas.

SUPPORTING SECURITY AND DEFENCE GLOBALLY

With the EPF, the EU:

funds the common costs of military CSDP missions and operations;

supports Peace Support Operations conducted by international and regional organisations, as well as partner countries around the world;

strengthens the capacities of third States and regional and international organisations relating to military and defence matters (e.g. providing lethal and non-lethal military equipment for the armed forces or infrastructure for security purposes).

MONITORING AND COMPLIANCE

The EPF includes measures to:

ensure an adequate risk assessment and mitigating measures in compliance with international human rights law, international humanitarian law and EU arms export laws;

monitor the respect of international law and commitment by the beneficiary at country level and headquarters;

allow civil society to report on violations of human rights and international humanitarian law.

Assistance under the EPF can be suspended or terminated any time by the Council in case of infringement and/or abuse.
