WELCOME LETTERS

Dragi izlagači i posjetitelji, poštovani visoki gosti,

iznimno mi je zadovoljstvo zaželjeti vam dobrodošlicu na osmom izdanju Jadranske vojne i zrakoplovne izložbe i konferencije – ASDA 2025. Ove se godine ASDA održava u Zagrebu, pod pokroviteljstvom Vlade Republike Hrvatske i uz potporu Ministarstva obrane Republike Hrvatske.

ASDA 2025 okuplja velik broj domaćih i svjetskih renomiranih izlagača te članova vlada, vojnih i obrambenih dužnosnika i stručnjaka, čime još jednom potvrđuje svoj međunarodni ugled.

Zahvalan sam našem dugogodišnjem partneru i organizatoru, tvrtki TNT Productions LLC, koja je prepoznala potencijal i izvrsnost hrvatske vojne obrambene industrije te od 2011. godine organizira izložbu ASDA u Republici Hrvatskoj.

Svijet se u sigurnosnom smislu nalazi na povijesnoj prekretnici. Europa danas mora mijenjati svoju sigurnosnu i obrambenu paradigmu. Vrijeme u kojem je svoju sigurnost delegirala drugima nepovratno je završilo. Europske snage, europska odgovornost i znatno veća, brža i kontinuirana ulaganja u obrambene sposobnosti oružanih snaga svih zemalja našeg kontinenta moraju biti prioritet.

Predugo je Europa sigurnost i obranu stavljala na neperspektivne pozicije u smislu važnosti i prioriteta. Prevladavalo je općenito stanovište, pa tako i u Hrvatskoj, koja je prije samo 30 godina prošla razoran Domovinski rat, da su mir i sigurnost nešto što se događa samo od sebe i da na to ne treba trošiti novac. Potpuno pogrešno.

Ruska agresija na Ukrajinu 2022., štoviše, već ruska aneksija Krima 2014. godine, morali su nam biti poziv na buđenje. Buđenje iz lažne predodžbe o miru i sigurnosti koji se podrazumijevaju.

Hrvatska od 2016. godine ozbiljno ulaže u svoje Oružane snage. Kontinuirano povećavamo svoj obrambeni proračun, a ove smo godine dosegli i dva posto BDP-a izdvajanja za obranu i gotovo 30 posto za modernizaciju i opremanje. Uz nabavu naoružanja strane proizvodnje, osnažujemo domaću vojnu industriju i u nju ulažemo. Naravno, u prvom redu brinemo se o našim vojnicima, dočasniciima i časnicima i sustavno podižemo njihov životni standard.

ASDA kao izvanredna izložba u području obrambene industrije igra ključnu ulogu jer pruža platformu za brojne susrete i dijaloge među predstavnicima sigurnosnih i obrambenih sektora iz različitih zemalja.

Ministarstvo obrane ključan je partner u razvoju hrvatske obrambene industrije, koja je svjetski brend, a kvaliteta njezinih proizvoda i usluga poznata je unutar Hrvatske vojske te saveznicima i partnerima. Sinergija Hrvatske vojske i hrvatskih znanstvenika, inovatora i poduzetnika u stvaranju novih naprednih obrambenih proizvoda ključan je put u stvaranju konkurentne obrambene industrije.

Uvjeren sam da će izložba ASDA 2025 biti izvrsna platforma za predstavljanje najnovijih tehnologija i inovacija, koja će, kao mjesto dijaloga, okupiti vodeće stručnjake i inovatore te nastaviti promicati hrvatske i međunarodne obrambene tvrtke u cilju poticanja tehnološkog napretka, jačanja globalne sigurnosti i stvaranja novih prilika za poslovnu suradnju u obrambenoj industriji.

S poštovanjem,

Ivan Anušić

potpredsjednik Vlade Republike Hrvatske i ministar obrane

WELCOME LETTER

2025 ASDA

Adriatic Sea Defense & Aerospace
EXHIBITION & CONFERENCE

8th Edition

Dear exhibitors, visitors, and distinguished guests,

It is my great pleasure to welcome you to the 8th edition of the Adriatic Sea Defense and Aerospace Exhibition and Conference – ASDA 2025. This year, ASDA is held in Zagreb, under the auspices of the Croatian Government and with the support of the Ministry of Defense of the Republic of Croatia.

ASDA 2025 gathers a large number of renowned domestic and global exhibitors, as well as government members, military and defense officials, and experts, thus reaffirming its international reputation.

I am grateful to our long-time partner and organizer, TNT Productions LLC, which recognized the potential and excellence of the Croatian military defense industry and has been organizing the ASDA exhibition in Croatia since 2011.

The world has reached a historical turning point in terms of security. Today, Europe must change its security and defense paradigm. The time when it delegated its security to others has come to an end. European forces, European responsibility and significantly greater, faster and continuous investments in the defense capabilities of the armed forces of all European countries must be a priority.

For too long, Europe has placed security and defense in a position of low priority in terms of relevance. The prevailing view, as was the case in Croatia, which went through the devastating Homeland War 30 years ago, was that peace and security are things that happen on their own and that no money should be spent on them. This is completely wrong.

Russia's aggression against Ukraine in 2022 and Russia's annexation of Crimea in 2014 should have been a wake-up call for us. A wake-up call from the false notion that peace and security are taken for granted.

Since 2016, Croatia has been investing a lot in its Armed Forces. We have continuously increased our defense budget, and this year we have reached two percent of GDP for defense spending and almost 30 percent for modernization and equipping. Along with the procurement of foreign-made weapons, we are strengthening and investing in the domestic military industry. However, our primary concern is for our soldiers, non-commissioned officers and officers, and we are systematically improving their standard of living.

ASDA, as an outstanding exhibition in the field of the defense industry, plays a key role as it provides a platform for numerous meetings and dialogues among representatives of the security and defense sectors from various countries.

The Ministry of Defense is a key partner in the development of the Croatian defense industry, which is a global brand, and the quality of its products and services is well known to the Croatian Armed Forces, our allies and partners. The synergy between the Croatian Armed Forces and Croatian scientists, innovators and entrepreneurs in creating new advanced defense products is a crucial path toward establishing a competitive defense industry.

I am confident that the ASDA 2025 exhibition will serve as an excellent platform for presenting the latest technologies and innovations. As a place for dialogue, it will bring together leading experts and innovators, continuing to promote Croatian and international defense companies with the aim of fostering technological progress, strengthening global security and creating new opportunities for business cooperation in the defense industry.

**Sincerely,
Ivan Anušić**

Deputy Prime Minister and Minister of Defense of the Republic of Croatia

Poštovani izlagači i posjetitelji, dragi prijatelji,

Velika mi je čast i zadovoljstvo po osmi put u Hrvatskoj pozdraviti vas na uglednoj Jadranskoj vojnoj zrakoplovnoj izložbi i konferenciji – ASDA 2025. Od svojeg prvog izdanja 2011. godine, ASDA je postala nezaobilazan događaj u kalendaru međunarodnih vojnih izložbi, privlačeći sve veći broj izlagača i posjetitelja iz zemlje i inozemstva.

Danas živimo u vremenu velikih sigurnosnih izazova. Ruska agresija na Ukrajinu, koja traje već četvrtu godinu, iz temelja je promijenila način na koji Europa, pa tako i Hrvatska, promatra vlastitu sigurnost i obranu.

Ovom prigodom fokusirat ću se na tri ključne poruke.

Prvo, završilo je razdoblje uživanja mirovne dividende. Europa je desetljećima gradila sigurnost uz snažnu potporu Sjedinjenih Američkih Država. No, dok promatramo novi smjer američke sigurnosne politike prema Europi, jasno je da moramo preuzeti veću odgovornost za vlastitu obranu. Jačanje nacionalnih i kolektivnih obrambenih sposobnosti postalo je imperativ, što su već prepoznali i naši politički čelnici. Pred nama je razdoblje rekonstrukcije obrambenih kapaciteta, u kojem će ključnu ulogu imati modernizacija i opremanje, uz značajna financijska ulaganja.

Drugo, rat u Ukrajini pokazao je kako nove tehnologije mijenjaju karakter suvremenog ratovanja. Ovo nije rat kakav je Hrvatska vojska dobila 1995. godine, niti se danas pripremamo za takvu vrstu sukoba. Hrvatske Oružane snage moraju biti spremne za rat visokog intenziteta, oslonjene na vrhunsku tehnologiju, besposadne sustave, naprednu kibernetičku obranu i sposobnost brzog prilagođavanja novim taktikama. Naše manevarske postrojbe, kao i sposobnosti njihove borbene i logističke potpore, moraju imati najmoderniju opremu kako bi osigurale učinkovitu obranu i odvratanje.

Treće, moramo nastaviti podržavati Ukrajinu, a istodobno ojačati naše zalihe te osigurati da naše Oružane snage ostanu potpuno spremne za sve scenarije.

Od obrambene industrije dakle očekujemo ne samo proizvodnju suvremenih i naprednih sustava, već i povećanje proizvodnih kapaciteta, kako bi se osigurale dostatne zalihe naoružanja i opreme.

Hrvatska obrambena industrija ima ključnu ulogu u ovim procesima. Već dugi niz godina hrvatske tvrtke proizvode pouzdanu, visokokvalitetnu i prilagođenu opremu za naše vojnike. Dio te opreme rezultat je suradnje Ministarstva obrane, Oružanih snaga i domaće industrije, dok drugi dio odražava iskustvo i inovativnost hrvatskih tvrtki. ASDA omogućuje povezivanje industrije, obrambenih resora i krajnjih korisnika – oružanih snaga, osiguravajući prostor za suradnju i razvoj novih rješenja.

Uvjeran sam da će Zagreb idućih dana biti središte inovativnih tehnoloških rješenja, strateških rasprava i stvaranja čvrstih partnerstava koja će pridonijeti jačanju sigurnosti i otpornosti na izazove suvremenog doba.

U ime Hrvatske vojske i u svoje osobno ime, zahvaljujem organizatorima, izlagačima i partnerima koji su svojim radom omogućili uspješno osmo izdanje ASDA-e.

Hvala vam!

General-pukovnik Tihomir KUNDID
načelnik Glavnog stožera Oružanih snaga Republike Hrvatske

WELCOME LETTER

2025 ASDA

Adriatic Sea Defense & Aerospace EXHIBITION & CONFERENCE

8th Edition

Distinguished exhibitors and visitors, dear friends,

It is my great honour and pleasure to welcome you once again to Croatia for the eighth edition of the Adriatic Sea Defense & Aerospace Exhibition and Conference – ASDA 2025. Since its inception in 2011, ASDA has become a key event on the international defense exhibition calendar, attracting an increasing number of exhibitors and visitors from both Croatia and abroad.

We are living in a time of major security challenges. Russia's aggression against Ukraine, now in its fourth year, has profoundly changed the way Europe—and Croatia—perceives its own security and defense.

This time I would like to focus on there are three key messages.

First, the era of enjoying the peace dividend is over. For decades, Europe built its security with strong support from the United States. However, as we observe the evolving course of U.S. security policy toward Europe, it is clear that we must take greater responsibility for our own defense. Strengthening national and collective defense capabilities has become imperative, a reality already acknowledged by our political leadership. We are entering a period of rebuilding our defense capacities, where modernization and re-equipment will play a crucial role, backed by significant financial investments.

Second, the war in Ukraine has demonstrated how new technologies are changing the character of modern warfare. This is not the kind of war that Croatian Armed Forces won in 1995, nor are we preparing for such a conflict today. The Croatian Armed Forces must be ready for high-intensity warfare, relying on cutting-edge technology, unmanned systems, advanced cyber defense, and the ability to swiftly adapt to new tactics. Our maneuver units, along with their combat support and combat service support capabilities, must be equipped with the most advanced military technology to ensure effective deterrence and defense.

Third, we must continue supporting Ukraine, while strengthening our stockpiles, and ensuring that our Armed Forces remain ready for all scenarios.

Thus, the defense industry is expected not only to produce more advanced and modernized systems but also to increase production capacities to ensure sufficient stocks of weapons and equipment.

The Croatian defense industry has a key role in these efforts. For many years, Croatian companies have provided reliable, high-quality, and purpose-built equipment for our armed forces. Some of these products are the result of collaboration between the Ministry of Defense, the Croatian Armed Forces, and the domestic defense industry, while others are based on the long-standing production expertise of Croatian companies. ASDA serves as a platform for connecting manufacturers, defense institutions, and end-users — our armed forces — facilitating collaboration and the development of new solutions.

I am confident that in the coming days, Zagreb will be a hub for innovative technological solutions, strategic discussions, and the creation of strong partnerships that will contribute to strengthening resilience against the challenges of the modern era.

On behalf of the Croatian Armed Forces and in my own name, I would like to thank the exhibition organizers, exhibitors, and partners who have contributed to the success of the eighth edition of ASDA.

Thank you!

Lieutenant General Tihomir KUNDID
Chief of General Staff of the Croatian Armed Force

Dragi izlagači i posjetitelji,

u ime Organizacijskog odbora ASDA 2025 želim vam srdačnu dobrodošlicu na osmu Jadransku vojnu i zrakoplovnu izložbu i konferenciju.

Čast mi je i zadovoljstvo što ste naši gosti u Zagrebu, gradu bogate povijesti i kulturne baštine i što je upravo Arena Zagreb izabrana kao nova lokacija za predstavljanje potencijala i kapaciteta široke skupine domaćih i stranih proizvođača naoružanja i vojne opreme te dobavljača za potrebe obrane.

Izložba ASDA sve više dobiva na značaju te je postala važna i prepoznatljiva obrambena izložba i izvan granica jugoistočne Europe. Ove će godine više od 200 izlagača predstaviti najnovija tehnička i tehnološka dostignuća u području obrane te raspraviti o mogućim oblicima buduće suradnje ili zajedničkih projekata.

Svjedoci smo velikih promjena na globalnom sigurnosnom planu koje zahtijevaju brzu prilagodbu radi ostvarivanja vlastitih ciljeva i zaštite nacionalnih interesa, no isto tako treba imati na umu da izazovna vremena stvaraju i nove mogućnosti.

Razvoj naprednih oružnih sustava, tehnologija i opreme, trend povećanja izdvajanja za potrebe obrane te brojne inicijative i procesi zajedničke nabave u okviru EU-a i NATO-a nove su prilike za povećanje kapaciteta i konkurentnosti hrvatske obrambene industrije.

U Ministarstvu obrane i Oružanim snagama RH od prvih smo dana hrvatske samostalnosti razumjeli koliki je značaj hrvatske obrambene industrije, ne samo za opremanje Oružanih snaga RH, nego i za cjelokupno hrvatsko gospodarstvo. Zato nas posebno veseli činjenica da se danas obrambena industrija Republike Hrvatske ističe s nekoliko prepoznatljivih imena na svjetskoj sceni proizvođača oružja i vojne opreme te privlači pažnju i interes brojnih kupaca.

Stoga moram izraziti zadovoljstvo pozitivnim odazivom hrvatskih izlagača obrambene industrije te se nadamo da će i ova ASDA pomoći vodećim domaćim tvrtkama u umrežavanju, stvaranju odnosa i novih poslovnih prilika.

Uvjeren sam da će sudjelovanje svih izlagača na ASDA-i biti od koristi ne samo za razvoj partnerstva, već i za obrambenu i sigurnosnu suradnju, čime dajete doprinos jačanju mira i sigurnosti.

Kao predsjednik Organizacijskog odbora posebno zahvaljujem organizatorima ovog događaja – tvrtki TNT Productions LCC kao i svakom pojedincu na naporu kako bismo osigurali uspjeh osme Jadranske vojne i zrakoplovne izložbe i konferencije. U nadi da će izložba biti uspješna, srdačno vas pozdravljam, a svim gostima i sudionicima želim što bolje poslovne rezultate te da provedu ugodno vrijeme u predivnom gradu Zagrebu.

**S poštovanjem,
Ivica Grebenar
Nacionalni direktor za naoružanje**

WELCOME LETTER

2025 ASDA

Adriatic Sea Defense & Aerospace
EXHIBITION & CONFERENCE

8th Edition

Dear exhibitors and visitors,

On behalf of the ASDA 2025 Organizing Board, I wish you a warm welcome to the eighth Adriatic Sea Defence and Aerospace Exhibition and Conference.

It is an honour and a pleasure to have you as our guests in Zagreb, a city rich in history and with a lot of cultural heritage, and that the Arena Zagreb was chosen as a new location and has provided an ideal venue for presenting the potential and capacity of the broad assembly of domestic and foreign armament and military equipment manufacturers and suppliers for defence needs.

I would like to emphasize the fact that the ASDA Exhibition has grown and become a significant and recognizable defence exhibition far beyond the Southeast Europe borders. This year, more than 200 exhibitors will be able to present the latest trends, techniques and technological achievements in the field of defence, as well as discuss possible future cooperation or collaborative projects.

We are witnessing major changes in the global security landscape that require rapid adaptation to achieve our own goals and protect national interests, but we should also keep in mind that challenging times also create new opportunities.

The development of advanced weapons systems, technologies and equipment, the trend of increasing defense spending, and numerous initiatives and joint procurement processes within the EU and NATO are new opportunities to increase the capacity and competitiveness of the Croatian defense industry.

In the Ministry of Defense and the Armed Forces of the Republic of Croatia, we have understood since the first days of Croatian independence how important the Croatian defense industry is, not only for equipping the Armed Forces of the Republic of Croatia, but also for the entire Croatian economy. That is why we are particularly pleased with the fact that today the defense industry of the Republic of Croatia stands out with several recognizable names on the world stage of weapons and military equipment manufacturers, and attracts the attention and interest of numerous buyers.

Therefore, I must express my satisfaction with the positive response of Croatian defence industry exhibitors at ASDA 2025. We hope that this ASDA Exhibition will also help leading domestic companies in networking, creating relationships and new business opportunities.

It is my sincere belief that the participation of all exhibitors at ASDA will be beneficial not only for the development of partnership, but also for defence and security cooperation, thereby contributing to the strengthening of peace and security.

As the Head of the Organizing Board, I would like to especially thank the organizers of this event - the TNT Productions LCC company as well as every individual for the effort they invested in order to ensure the success of the eighth Adriatic Sea Defence and Aerospace Exhibition. With a strong belief that the exhibition will be successful, I warmly greet you, and sincerely wish all the guests and participants a great success and pleasant time in the wonderful city of Zagreb.

Sincerely,
Ivica Grebenar
National Armament Director

Poštovani izlagači i posjetitelji:

U ime organizacijskog odbora i osoblja TNT Production, zadovoljstvo nam je poželjeti Vam dobrodošlicu na ovom svečanom otvranju izložbe pod nazivom Adriatic Sea Defense and Aerospace Exhibition – ASDA 2025.

Od početka civilizacije, narodi iz svih svjetskih kultura, povjeravali su svojoj vladi na odgovornost da osigura njihovu unutarnju i vanjsku sigurnost.

Tehnike i tehnologija potrebna za postizanje te sigurnosti neprestano se mijenjaju, ali potreba za sigurnošću ostaje uvijek prisutna.

Na izložbi sudjeluje više od 235 izlagača iz 27 države. Pozdravljamo sve izlagače koji su došli pokazati najnovije tehnike i tehnologije za postizanje sigurnosti. Također pozdravljamo i brojne dolaske delegacija Ministarstva obrane, na ovu izložbu i u ovaj prekrasan grad Zagreb.

Organizacija ovakvog događaja zahtjeva veliku suradnju i ogromnu količinu rada. Stoga koristim ovu priliku da se zahvalim svim osobama i organizacijama koje su vrijedno radile u stvaranju ove izložbe.

Posebno želimo zahvaliti našem domaćinu Ministarstvu obrane Republike Hrvatske, upravi grada Zagreb i naravno, upravljačkom timu Arena Zagreb.

Također bismo željeli zahvaliti Američkom Veleposlanstvu u Zagrebu te cijelom osoblju i dobavljačima na iznimnom radu kako bi napravili ovo svečano otvorenje.

Bez pomoći i podrške svih ovih ljudi i organizacija ova izložba ne bi bila moguća.

Najtoplije i najiskrenije vam se zahvaljujemo.

Hvala Vam.

Justin Webb
President
TNT Productions, LLC.

WELCOME LETTER

2025 ASDA

Adriatic Sea Defense & Aerospace
EXHIBITION & CONFERENCE

8th Edition

Dear Exhibitors & Visitors:

On behalf of the organizing committee and staff of TNT Productions, we would like to welcome you all to the third edition of the Adriatic Sea Defense and Aerospace Exhibition – ASDA 2025.

Since the dawn of civilization, societies from all of the world's cultures have entrusted their governments with the responsibility to provide for their internal and external security. The techniques and technologies required to achieve this security are constantly changing, but the need is never changing.

Participating in this exhibition are more than 235 companies from 27 different countries. We welcome all of these companies who are displaying many of the most recent techniques and technologies for achieving this security. We also welcome the many visiting Ministry of Defense delegations to the exhibition and to the beautiful city of Zagreb.

Organizing an event like this takes a lot of cooperation and an enormous amount of work, and I would like to take this opportunity to thank the people and organizations that worked very hard to help to create this exhibition.

In particular we would like to thank our host the Ministry of Defence of the Republic of Croatia, the administration of the City of Zagreb and of course the management team of the Arena Zagreb.

We would also like to thank the US Embassy in Zagreb and all of our staff and suppliers in Croatia who have worked incredibly hard to create this eighth edition.

Without the help and support of all of these people and organizations, this exhibition could not have been possible.

We give you our warmest and most sincere thanks.

Thank you.

Justin Webb
President
TNT Productions, LLC.

www.511tactical.com

5.11 Tactical® offers a comprehensive range of public safety gear, designed specifically to address the needs of first responders in EMS, fire, and law enforcement sectors. Our expertly crafted products feature unmatched reliability and performance, ensuring you're always ready to answer the call. The selection includes fire retardant apparel, task-specific EMS gear, rugged PDUs, and comfortable footwear tailored for public safety professionals.

5.11 Tactical® Series apparel and accessories are developed with valuable input from ground operators and are engineered using advanced materials and techniques. These products live up to the highest standards of craftsmanship, quality, and utility required by first responders in highly demanding situations. We understand that your job is already challenging, so we focus on providing you with the best possible tools.

In addition to top-notch apparel, we offer functional and stylish accessories like flashlights, bags, and packs designed to complement your gear and augment your performance. Our products enable you to maintain a professional appearance while on duty.

At 5.11 Tactical®, we are dedicated to empowering first responders with the equipment necessary to excel in their roles. Our public safety gear delivers unmatched power, mobility, and versatility, ensuring that you are well-prepared for any scenario. Experience the difference that our purpose-built apparel and gear can make in your daily operations, and trust 5.11 Tactical® to equip you with the best solutions for your needs.

5.11 Tactical® nudi sveobuhvatan asortiman opreme za javnu sigurnost, dizajniranu posebno da zadovolji potrebe hitnih službi u hitnim medicinskim službama, vatrogascima i industriji provođenja zakona. Naše stručno proizvedene proizvode karakterizira neusporediva pouzdanost i performanse, kako bi vam uvijek jamčili najveću brzinu u odgovoru na svaki zahtjev za intervencijom. Izbor uključuje odjeću otpornu na plamen, EMS opremu specifičnu za aktivnost, izdržljive PDU-ove i udobnu obuću, sve prilagođeno službenicima za provođenje zakona.

Odjeća i dodaci serije 5.11 Tactical® razvijeni su zahvaljujući vrijednom doprinosu zemaljskih operatera i dizajnirani su korištenjem najsuvremenijih materijala i tehnika. Ovi proizvodi zadovoljavaju najviše standarde izrade, kvalitete i korisnosti koje zahtijevaju spasioци u iznimno zahtjevnim situacijama. Znamo da je vaš posao već izazovan, stoga smo predani pružanju najboljih mogućih alata.

Osim visokokvalitetne odjeće, nudimo funkcionalne i moderne dodatke, poput svjetiljki, torbi i ruksaka, dizajniranih da nadopune vašu opremu i maksimiziraju vaše performanse. Naši proizvodi omogućuju vam održavanje profesionalnog izgleda dok ste na dužnosti.

U 5.11 Tactical®, predani smo pružanju hitnih službi s opremom koja im je potrebna da se istaknu u svojim ulogama. Naši uređaji za javnu sigurnost nude neusporedivu snagu, mobilnost i svestranost kako bi bili spremni za svaki scenarij. Otkrijte razliku koju naši posebno dizajnirani odjevni predmeti i oprema mogu napraviti u vašim svakodnevnim aktivnostima i vjerujte 5.11 Tactical® da pronađete najbolja rješenja za svoje potrebe.

A.S. USLUGE D.O.O.

STAND 935

Josipa Runjanina 96
32281 Ivankovo | CROATIA

Phone: +385 99 212 4396
www.asusluge.com

Our company specializes in maintenance, overhaul and modernization of combat armored vehicles. We focus on T-72 and M-84 tanks, M80A infantry fighting vehicles, recovery tanks, BMP-1/2 components.

We sell spare parts and pass on the knowledge and technology for the maintenance of special vehicles and their components, as well as artillery systems of 105, 122, 130, 152, and 155mm.

Together with our partners, we equip all models of BOV and BVP with 30mm remotely controlled combat module.

We ensure top standards in the defense industry, which has been confirmed by ISO 9001:2015 Certification for the maintenance and overhaul of armaments and military equipment.

Tvrtka smo specijalizirana za održavanje, remont i modernizaciju borbenih oklopnih vozila i njihovih komponenti. Fokusirani smo na tenkove T-72 i M-84, vozila pješništva BVP M80A, tenkove za izvlačenje, komponente BMP-1/2.

Provodimo prijenos znanja i tehnologije održavanja specijalnih vozila i njihovih komponenti, te topničkih sustava 105, 122, 130, 152 i 155 mm.

Prodajemo rezervne dijelova za sve vrste specijalnih vozila.

U suradnji s partnerima posjedujemo mogućnosti opremanje svih modela BOV i BVP daljinski upravljanim borbenim modulom 30 mm.

Kvalitetom i stručnim pristupom osiguravamo vrhunske standarde u obrambenoj industriji, što je potvrđeno Certifikatom ISO 9001:2015 -Održavanje i remont naoružanja i vojne opreme.

AERO PARTNER D.O.O.

STAND 2201

Pete Poljanice 12
10040 Zagreb | CROATIA

Phone: +385 1200 0743 | Fax: +385 1558 9777
www.aeropartner.hr

Established in 2011 in Zagreb, Aero Partner Ltd. brings together professionals with over 20 years of experience in the defense industry across Croatia, the region, and Europe.

The company specializes in coordinating, managing, and consulting on defense projects, as well as trading, importing, and exporting special-purpose goods and services, including military equipment and spare parts.

Aero Partner offers tailored solutions for spares, repairs, and modernization, acting as a vital supply chain link between operators and OEMs/MROs. Committed to integrity and expertise, the company aims to be a leader in defense sector consulting, delivering top-notch services that meet the needs and expectations of partners and customers.

Osnovan 2011. u Zagrebu, Aero Partner d.o.o. spaja profesionalce s preko 20 godina iskustva u obrambenoj industriji širom Hrvatske, regije i Europe.

Poduzeće se specijaliziralo za koordinaciju, upravljanje i savjetovanje u obrambenim projektima, kao i za trgovinu, uvoz i izvoz roba i usluga posebne namjene, uključujući vojnu opremu i rezervne dijelove.

Aero Partner nudi skrojena rješenja za rezervne dijelove, popravke i modernizaciju, djelujući kao ključna karika u lancu nabave između korisnika i proizvođača / servisnog centra. Predani integritetu i stručnosti, poduzeće želi biti lider u sektoru obrambenog savjetovanja, isporučujući najbolje usluge koje ispunjavaju potrebe i očekivanja partnera i naručitelja.

Established in 1972, AVIOANE CRAIOVA S.A. initiates its activities in aircraft manufacturing with IAR-93, a two-engine, subsonic, air – to ground attack aircraft. The company played a vital role in development of this aircraft, that served Romanian Air Force until 1999.

IAR – 99 is the second large project AVIOANE CRAIOVA contributes in developing and fabrication. First flight of the IAR – 99 Standard version, in December 1985, was the beginning of a great story.

Currently, we are involved in 2 major projects: IAR-99 SM is the program that transform the Standard configuration into advanced trainer and the up-grade of IAR-99 SOIM version configuration which improve its current CAS capability as well as extend its lifetime.

Avioane Craiova is permanently interested in products and services range extension and co-operation with other companies as well, in order to develop adequate programs, according to our technical and technological capabilities.

Our company is open to cooperation in the airspace industry. We can provide a wide range of products and services for military and civil aircrafts, structures assemblies, spare parts, tools, jigs and testers.

Borovo d.d. is the first and the most famous shoe manufacturer in Croatia with over 90 years of tradition.

Founded 1931 in Vukovar, Croatia, over the years Borovo managed to build its identity not only in Croatia, but in the whole region by producing quality fashion, urban, casual and protective footwear.

In the production Borovo uses only natural materials, such as real leather, 100% cotton textile and natural rubber made in our factory.

We are one of the biggest employers in Vukovar-Syrmia County with 600 employes (included 70 shops and the factory).

Annual production is 400.000 pair of shoes in a technologically modernized machine park and modernized all stages of production.

In the area of protective and safety shoes, Borovo produces quality shoes and boots for the Croatian military and police of which we are very proud of.

Always looking for new opportunities and challenges we are doing our best in creating new values to be recognized on the market and to satisfy the needs of our customers.

Đuro Đaković Special Vehicles Plc. is a leading regional manufacturer of armored and specialized military vehicles, with a focus on tanks, combat vehicles, and demining machines. The company is part of the Đuro Đaković Group, an industrial giant with a tradition dating back to 1921, renowned for its extensive expertise in engineering and the defense industry.

Through continuous modernization and maintenance of military systems, Đuro Đaković Special Vehicles Plc. ensures high operational readiness and long-term reliability of its products. With a commitment to technical excellence and strategic partnerships, the company continues to strengthen its position in the global market. In addition to the defense sector, it also manufactures freight wagons for the European market, reaffirming its status as a trusted industrial partner.

Đuro Đaković Specijalna vozila d.d. vodeći je regionalni proizvođač oklopnih i specijaliziranih vojnih vozila, s naglaskom na tenkove, borbena vozila i strojeve za razminiranje. Tvrtka je dio Đuro Đaković grupacije, industrijskog giganta s tradicijom od 1921. godine, koji se ističe bogatim iskustvom u strojarstvu i obrambenoj industriji.

Kontinuiranom modernizacijom i održavanjem vojnih sustava, Đuro Đaković Specijalna vozila d.d. osiguravaju visoku operativnu spremnost i dugoročnu pouzdanost svojih proizvoda. Kroz tehničku izvrsnost i strateška partnerstva, tvrtka dodatno jača svoju poziciju na globalnom tržištu. Uz vojni sektor, bavi se i proizvodnjom teretnih vagona za europsko tržište, potvrđujući svoj status pouzdanog industrijskog partnera.

EBC TECHNOLOGY D.O.O.

STAND 1012

Marofska 45
42000 Varaždin | CROATIA

Phone: +385 977 782 635
www.ebctechnology.com

CAPABILITIES OF THE EBC DEVICE

The EBC device develops a temperature of over 6.000 °C at the tip of the tubular electrode, which allows it to cut and drill metal and reinforced concrete in dry conditions and underwater, regardless of hardness. It is not bothered by rust, dust, water or mud. In addition to ordinary iron and all types of steel, it cuts and drills cast iron and stainless steel, as well as bronze, and the speed and ease of cutting are the same on dry and underwater.

PURPOSE

The EBC mobile device "VULKAN 10" is used in various military operations, in peacetime and wartime conditions, due to its efficiency and wide application on land and underwater.

This especially applies to special units - saboteurs, engineering, armored and infantry units, anti-terrorist units, as well as for clearing the terrain in the event of war destruction, earthquakes, floods and the like...

Mobile teams equipped with this device can very quickly and efficiently, without noise, vibrations and dust, operate in the enemy background, in commando operations - RAILS, BRIDGES, ELECTRIC POLES, GILLETTE WIRE and for cutting various metal obstacles.

Tvrtka EBC Technology d.o.o. se bavi proizvodnjom i prodajom specijalnih uređaja i cjevastih elektroda za visokotemperaturno rezanje i bušenje svih vrsta metala, armiranog betona i kamena pod vodom i na kopnu. Uređaj i cjevaste elektrode su inovacija koja je plod dugogodišnjeg istraživanja i rada naših djelatnika.

MOGUĆNOSTI EBC UREĐAJA

EBC uređaj na vrhu cjevaste elektrode razvija temperaturu preko 6.000 °C što mu omogućuje rezanje i bušenje metala i armiranog betona u suhim uvjetima i pod vodom, bez obzira na tvrdoću. Ne smeta mu hrđa, prašina, voda ili blato. Osim običnog željeza i svih vrsta čelika, izvrsno reže i buši gus i inox, kao i broncu, a brzina i lakoća rezanja jednaka je na suhom i pod vodom.

NAMJENA

EBC mobilni uređaj "VULKAN 10" zbog svoje učinkovitosti i široke primjene na kopnu i pod vodom koristi se u raznim operacijama vojske, u mirnodopskim i ratnim uvjetima.

Posebno se to odnosi na specijalne postrojbe - diverzanti, inženjerija, oklopne i pješačke postrojbe, antiterorističke jedinice, kao i za raščišćavanje terena kod ratnih razaranja, potresa, poplava i slično...

Mobilne ekipe opremljene ovim uređajem mogu vrlo brzo i učinkovito, bez buke, vibracija i prašine, djelovati u neprijateljskoj pozadini, u akcijama komandosa - ŠINE, MOSTOVI, ELEKTRIČNI STUPOVI, GILLETTE ŽICA i za rezanje raznih metalnih prepreka.

www.galeb.hr

Galeb d.d. is a vertically integrated textile company founded in 1951, and for over 73 years we are manufacturing underwear and outerwear products for civilian and institutional sector. Through our intergrated production process "from yarn to finished product" (R&D, Production of fabric & Production of finished products), we provide complete service with a professional support from our staff members.

Special part of our portfolio belongs to FUNCTIONAL UNDERWEAR, intended for those who are often exposed to outer influences, low or high temperatures and intense physical activity. Within this programme the virtues of natural fibers and synthetic fibers are combined to achieve superior skin protection and enable the skin to preform normally under extreme circumstances with functions like heat and flame protection, chemical resistance, thermoregulation, warming, moisture managment.

Through decades of experience in development and production, we established longterm cooperations with many institucional business partners (army, police, civil protection, firefighters, etc) in Croatia and worldwide.

Our mission is to create clothes in accordance with time and nature, for those who choose only the premium, and we are committed to meeting the requirements of new development trends of industry 4.0 and smart textiles, along with continual improvment od quality, enviroment and safety.

Galeb d.d. je vertikalno integrirana tekstilna tvrtka osnovana 1951. godine, te više od 73 godina proizvodimo donje rublje i vanjsku odjeću za civilni i institucionalni sektor. Kroz naš integrirani proizvodni proces «od prediva do gotovog proizvoda» (istraživanje i razvoj, proizvodnja pletiva i proizvodnja gotovih proizvoda), pružamo kompletnu uslugu uz profesionalnu podršku našeg osoblja.

Poseban dio unutar našeg portfelja pripada FUNKCIONALNOM DONJEM RUBLJU, koje je namijenjeno onima koji su često izloženi vanjskim utjecajima, niskim ili visokim temperaturama i intenzivnoj tjelesnoj aktivnosti. Unutar ovog programa prirodna i sintetička vlakna se kombiniraju kako bi se postigla vrhunaska zaštita kože i omogućilo istoj normalno funkcioniranje u ekstremnim okolnostima sa karakteristikama kao što su zaštita od topline i plamena, otpornost na kemikalije, termoregulacija, utopljavanje, odvlaživanje, inhibicija rasta bakterija.

Kroz desetljeća iskustva u razvoju i proizvodnji, uspostavili smo dugoročnu suradnju s mnogim institucionalnim poslovnim partnerima (vojska, policija, civilna zaštita, vatrogasci itd.) u Hrvatskoj i diljem svijeta.

Naša misija je stvarati odjeću u skladu s vremenom i prirodom, za one koji biraju samo vrhunsko, te smo predani ispunjavanju zahtjeva novih razvojnih trendova industrije 4.0 i pametnog tekstila, uz stalno poboljšanje kvalitete, okoliša i sigurnosti.

Phone: +385 4766 6666 | Fax: +385 4764 5594
www.hs-produkt@hs-produkt.hr

HS Produkt was founded in 1992. First models of the semi-automatic pistols which have been developed and produced by HS Produkt were PHP (First Croatian Pistol), HS-95 and HS-2000.

In middle of 2001, the HS Produkt signed an exclusive-long term contract with the American company Springfield Armory.

The real quality of the pistols produced by HS are awards by NRA (National Rifle Association) for the best pistols in U.S.A. in 2003., 2006., 2009., 2013., 2018., 2020. and 2023.

In period from 2001. till end of 2024., company HS Produkt d.o.o. sold over 7 million pistols.

Except semi-automatic pistols, HS Produkt offer complete system for soldier which contains assault rifle VHS in caliber 5.56x45 mm, grenade launcher in caliber 40x46 mm and optic sight CT-1.5x.

The newest product of the HS Produkt company is the KUNA short machine gun in 9mm and .40SW caliber, which will be presented for the Croatian market at the ASDA 2025 exhibition.

Today, HS Produkt is a modern factory with more than 1,850 employees, the most advanced technology for small arms production and one of the biggest factories that is producing pistols and assault rifles in the world.

HS Produkt je osnovan 1992. godine. Prvi modeli poluautomatskih pištolja koje je HS Produkt razvio i proizvodio bili su PHP (Prvi hrvatski pištolj), HS-95 i HS-2000.

Sredinom 2001. godine HS Produkt je potpisao ekskluzivni dugoročni ugovor s američkom tvrtkom Springfield Armory.

Prava kvaliteta pištolja koje proizvodi HS su nagrade NRA (National Rifle Association) za najbolje pištolje u SAD-u 2003., 2006., 2009., 2013., 2018., 2020. i 2023. godine.

U razdoblju od 2001. do kraja 2024. godine tvrtka HS Produkt d.o.o. prodao preko 7 milijuna pištolja.

Osim poluautomatskih pištolja, HS Produkt nudi kompletan sustav za vojnika koji sadrži jurišnu pušku VHS kalibra 5,56x45 mm, bacač granata kalibra 40x46 mm i optički nišan CT-1.5x.

Najnoviji proizvod društva HS Produkt-a je kratka strojica KUNA u kalibru 9mm i .40SW, koja će biti predstavljena za tržište RH na izložbi ASDA 2025.

Danas je HS Produkt moderna tvornica s više od 1.850 zaposlenih, najnaprednijom tehnologijom za proizvodnju malog oružja i jedna od najvećih tvornica za proizvodnju pištolja i jurišnih pušaka u svijetu.

Phone: +385 997 028 283 | Fax: +385 1349 8647
www.jacquard.hr

JACQUARD d.o.o. was founded in 1984 with headquarters in Zagreb as a small family business.

Today, we are expanding our product range and following the demands of the market with about thirty employees. Years of experience, a young, ambitious team, and the use of modern technology with constant improvement and acquisition of new knowledge are the basic assets of our company.

From the very creation of the embroidery program, through the preparation of the work and the production itself, the greatest attention has been paid to the quality of the product, for which we have long been recognized.

In 2007, we became authorized representatives of two parts of Indorama Corporation, Indonesia's leading manufacturer of various industrial products.

Indorama Synthetics is part of the IC manufacturing polyester and is one of the largest polyester manufacturers in Indonesia with a total production capacity of 280,000 tons per year.

Indorama Kokand Textile is guided by the most advanced technology in cotton production using machines and equipment from Europe and Japan and is the first facility in Central Asia to produce 100% combed cotton.

Production

The main activity of Jacquard d.o.o. is weaving: labels, emblems, flags ... But our entire range also includes hats, wool hats and T-shirts of our own high-quality brand and applying our woven products to these aforementioned products.

Weaving

In our weaving facility are exclusively top-quality machines from the leading Swiss manufacturer Muller. Our team goes through their education. Only 100% polyester yarn is used in the weaving.

Fabric treatment (gluing, pressing, cutting, sewing)

Depending on the needs of our parties, the fabrics are just cut or further stiffened to provide the desired finishing edge.

Sewing

Then in our sewing room they are applied to the selected product.

New Technologies

Jacquard Company d.o.o. he uses modern machines and new technologies in its work. We regularly follow the developments in the textile industry in Croatia and worldwide.

But besides woven products, we also offer stitching (machine embroidery) or printing.

Our goal is to present your logo or design on everyday objects, whether it be uniforms for your employees, sports equipment with a prominent coat of arms of your sports club, or business gifts that transform generic pillows, caps or towels that with our stich become special and unique.

We also have T-shirts, hats, woollen or fleece hats.

IKOM - KOVNICA is a mint from Zagreb that has been in the bigger part of its current production program forging its traditions since 1946, constantly expanding the application of its technologies in the fields of minting, plating, enameling, electroplating etc. Up to today, IKOM-KOVNICA has been famous for the applied technologies especially for its master's artisans. The products are made of various metals copper, iron, brass, gold, silver etc. as per customers wishes, some of enriched with hard burned enamel. In our facility, we have an ecological electroplating factory, several lathes, milling machines, CNC engraving machines, wire CNC, and in our mint we have presses with pressure from 5 to 1200 tons, we do polishing and electroplating, and we also have a goldsmith's workshop.

- Enamel or relief badges and emblems
- Decorations for the army and police
- Official identification badges
- Lapel pin badge
- Army, police and fire-brigades memorials
- Medals, cups and medallions for sports, administration and organizations
- All kind of rewards
- Belt-buckles
- Engraved products
- Steel stamps
- Metal buttons
- Urns
- Metal surface process services (electroplating, polishing etc.)
- All products can be custom made according to the customers wishes.

IKOM – KOVNICA tvrtka je iz Zagreba koja svoju tradiciju kuje već dugi niz godina stalnim unaprijeđivanjem i razvojem svojim tehnologijama u području kovanja, graviranja, galvanizacije, emajliranja i drugih načina oplemenjivanja metala. Ikom- Kovnica uvijek je bila poznata po svojim proizvodima visoke kvalitete. Proizvodi se izrađuju od raznih vrsta metala, a neki od njih su bakar, mesing, željezo, a često i plemenitih metala kao što su zlato i srebro.

Proizvodimo:

- medalje
- službene oznake
- odlikovanja
- ambleme za uniforme
- kopče za remenje
- metalne gumbe
- agrade rađene po mjeri
- medaljone
- kovanice
- pehare
- plakete
- službene značke raznih organizacija
- značke za rever
- urne
- žigove i alate
- pružamo usluge galvanizacije, graviranja

A venerable institution with roots dating back to the 15th century, the Makine ve Kimya Endüstrisi A.Ş. undertakes significant responsibilities to fulfill the needs of the Turkish Armed Forces. Its aims encompass producing high-tech weaponry and ammunition domestically, establishing the necessary infrastructure for production facilities, and contributing to a strong Türkiye. With a rich history and an eye towards the future, the corporation utilizes its knowledge and expertise to manufacture defense industry products of utmost quality for our country.

Operating across different regions of our nation, it possesses the unique capability through 11 factories and 2 facilities, to manufacture weapons and ammunition spanning calibers from 5.56mm to 203mm, all under one roof. As the sole entity of its kind worldwide, the corporation is dedicated to advancing key defense technologies, guiding the sector in technology production, investing in technologies to eliminate external dependence, conducting exports to friendly nations, and maintaining a production infrastructure capable of meeting the needs of the Turkish Armed Forces and Security Forces without hesitation for battle readiness. Across categories such as ammunition, weaponry, rockets, explosive materials, pyrotechnic products, gas masks, powder variations, as well as brass and steel materials, it converges technology and experience to pave the way for future weapon systems. With a vision to become a preferred global brand known for innovation, competitiveness, and quality, the corporation continually enhances our nation's strength.

Cijenjena institucija s korijenima koji datiraju iz 15. stoljeća, Makine ve Kimya Endüstrisi A.Ş. preuzima značajne odgovornosti kako bi zadovoljila potrebe Turskih oružanih snaga. Njeni ciljevi uključuju domaću proizvodnju visoko tehnološkog naoružanja i municije, uspostavljanje potrebne infrastrukture za proizvodne objekte te doprinos jačanju Turske. S bogatom poviješću i pogledom usmjerenim ka budućnosti, korporacija koristi svoje znanje i stručnost za proizvodnju proizvoda obrambene industrije vrhunske kvalitete za našu zemlju.

Djelujući u različitim regijama naše zemlje, posjeduje jedinstvenu sposobnost kroz 11 tvornica i 2 objekta da proizvodi oružje i municiju u rasponu od 5,56 mm do 203 mm, sve pod jednim krovom. Kao jedini entitet te vrste na svijetu, korporacija je posvećena napretku ključnih obrambenih tehnologija, vođenju sektora u proizvodnji tehnologije, ulaganju u tehnologije kako bi se eliminirala vanjska ovisnost, izvozu prijateljskim nacijama i održavanju proizvodne infrastrukture sposobne da bez oklijevanja zadovolji potrebe Turskih oružanih snaga i snaga sigurnosti za borbenu spremnost. U kategorijama kao što su municija, oružje, rakete, eksplozivni materijali, pirotehnički proizvodi, plinske maske, varijacije praškova, kao i mesingi i čelični materijali, spaja tehnologiju i iskustvo kako bi utabala put budućim sustavima oružja. S vizijom da postane preferirani globalni brend poznat po inovacijama, konkurentnosti i kvaliteti, korporacija neprekidno jača snagu naše nacije.

Palo Alto Networks, Inc., founded in 2005, is a leading American multinational cybersecurity company headquartered in Santa Clara, California. The company specializes in providing advanced firewalls and cloud-based security solutions designed to protect various aspects of digital operations. Serving over 80,000 enterprise customers across more than 150 countries, including 85 of the Fortune 100, Palo Alto Networks is committed to safeguarding the digital way of life. Palo Alto Networks' mission is to be the cybersecurity partner of choice, protecting our digital way of life. Palo Alto Networks offers a comprehensive range of cybersecurity solutions, including:

Network Security: Next-generation firewall appliances and software that provide advanced threat prevention and secure network traffic.

Cloud Security: Prisma Cloud, a cloud-native security platform that offers comprehensive protection across public and private clouds.

Security Operations: Cortex, an AI-driven continuous security operations platform that simplifies and automates threat detection, investigation, and response.

These solutions are powered by Precision AI, delivering precise threat detection and swift response, thereby minimizing false positives and enhancing security effectiveness.

With operations spanning the Americas, Europe, the Middle East, Africa, and the Asia-Pacific regions, Palo Alto Networks continues to expand its global footprint, delivering cutting-edge cybersecurity solutions to a diverse clientele.

Palo Alto Networks, Inc., osnovana 2005. godine, vodeća je američka multinacionalna tvrtka za cyber sigurnost sa sjedištem u Santa Clari, u Kaliforniji. Tvrtka se specijalizirala za pružanje naprednih firewall i sigurnosnih rješenja temeljenih na oblaku s ciljem zaštite različitih digitalnih operacija. S više od 80.000 korporativnih klijenata u preko 150 zemalja, uključujući 85 tvrtki s liste Fortune 100, Palo Alto Networks kontinuirano radi na zaštiti digitalnog načina života. Misija tvrtke Palo Alto Networks je postati najpouzdaniji partner za kibernetičku sigurnost, osiguravajući siguran digitalni svijet.

Palo Alto Networks nudi širok spektar sigurnosnih rješenja, uključujući:

Rješenja za sigurnost mreže: NGFW (Next Generation Firewall) rješenja koja pružaju naprednu zaštitu od prijetnji i osiguravaju mrežni promet. **Zaštita okruženja u oblaku:** Prisma Cloud, sigurnosna platforma dizajnirana za zaštitu javnih i privatnih cloud okruženja.

Sigurnosne operacije: Cortex, platforma temeljena na AI tehnologiji koja omogućuje kontinuitet sigurnosnih operacija te pojednostavljuje i automatizira detekciju, otkrivanje i odgovor na prijetnje.

Ova rješenja koriste Precision AI, tehnologiju koja omogućuje precizno otkrivanje prijetnji i brzu reakciju, smanjujući lažne informacije o prijetnjama i povećavajući učinkovitost sigurnosnih mjera.

Palo Alto Networks posluje u Sjevernoj i Južnoj Americi, Europi, Bliskom istoku, Africi i azijsko-pacifičkoj regiji.

Šestan-Busch d.o.o. is a family company (the Šestan family from Croatia and the Busch family from Germany) dedicated to the production of personal protection products, primarily protective helmets.

Since its inception in 1995, Sestan-Busch has followed its quality policies, which demand and require constant monitoring and compliance with all Global quality standards in the production of safety equipment.

Today, Sestan-Busch is the brand name to which over 3 million users from the military, police, civil protection and other security services have given the confidence to protect their health and lives.

Protecting the lives and health of people threatened by violence is Sestan-Busch's fundamental mission. We can not influence the causes of the conflict but the superior quality of our products can reduce the number of victims and save many human lives. We have established cooperation routes with over 75 countries around the world, and with the constant innovations and search for the best solutions we have created a reliable and recognizable brand.

Šestan-Busch d.o.o. je obiteljska tvrtka (obitelj Šestan iz Hrvatske i obitelj Busch iz Njemačke) posvećena proizvodnji proizvoda za osobnu zaštitu, prvenstveno zaštitnih kaciga.

Od svog osnutka 1995. godine, Šestan-Busch slijedi svoju politiku kvalitete, koja zahtijeva i zahtjeva stalni nadzor i usklađenost sa svim svjetskim standardima kvalitete u proizvodnji sigurnosne opreme.

Danas je Šestan-Busch robna marka kojoj je više od 3 milijuna korisnika iz vojske, policije, civilne zaštite i drugih sigurnosnih službi ukazalo povjerenje za zaštitu svog zdravlja i života.

Zaštita života i zdravlja ljudi ugroženih nasiljem temeljna je misija Šestan-Buscha. Ne možemo utjecati na uzroke sukoba, ali vrhunska kvaliteta naših proizvoda može smanjiti broj žrtava i spasiti mnoge ljudske živote. Uspostavili smo puteve suradnje s više od 75 zemalja svijeta, a stalnim inovacijama i traženjem najboljih rješenja stvorili smo pouzdan i prepoznatljiv brend.

SHIPYARD OF SPECIAL FACILITIES Ltd.

As a member of the DIV group, Shipyard of Special Facilities Ltd. is a company with a long tradition and one of the best known European specialized shipyards. The company develops, designs and builds naval vessels, submarines and passenger ships as a dominant program, as well as the most complex steel structures for infrastructure, transport, energy, process and general applications.

Shipyard represents the technology transfer program and the naval program, especially projects beyond the OFFSHORE PATROL VESSEL-CORVETTE OPV-C BIS91, the FAST ATTACK PATROL VESSEL FAV250 and the COASTAL PATROL VESSELS CPV-31 'Omiš' and CPV-32 'Umag' for the protection of internal marine waters and for combat and logistic support tasks, built for the Ministry of Defense of the Republic of Croatia for the needs of the Coast Guard of the Croatian Navy.

The growing demand for modern coastal and combat vessels opens opportunities for Shipyard of Special Facilities to strengthen European defense capabilities. Our shipyard boasts top-tier infrastructure, highly skilled professionals, and close collaboration with scientific institutions in Croatia. This enables us to design and build advanced military vessels, including submarines.

BRODOGRADILIŠTE SPECIJALNIH OBJEKATA d.o.o.

Član DIV grupe, Brodogradilište specijalnih objekata tvrtka je duge i blistave tradicije, i jedno od najpoznatijih europskih brodogradilišta specijalne namjene. Tvrtka razvija, projektira i gradi vojne brodove, podmornice i putničke brodove kao dominantni program, te najsloženije čelične konstrukcije za infrastrukturnu, prometnu, energetska, procesnu i opću primjenu.

Brodogradilište predstavlja program transfera tehnologija te vojni program, posebno projekte izvan obalnog ophodnog broda-korvete OOB-C BIS91, brzog napadajnog ophodnog broda FAV250 te obalno ophodne brodove OOB-31 'Omiš' i OOB-32 'Umag' za zaštitu unutarnjih morskih voda te za zadaće borbene i logističke potpore, koji su izgrađeni za naručitelja Ministarstvo obrane RH, za potrebe Obalne straže Hrvatske ratne mornarice.

Rastuća potražnja za modernim obalnim i borbenim plovilima otvara prostor za angažman brodogradilišta specijalnih objekata u jačanju europskih obrambenih sposobnosti. Naše brodogradilište raspolaže vrhunskim infrastrukturnim kapacitetima, visoko kvalificiranim stručnjacima i bliskom suradnjom sa znanstvenim institucijama u Hrvatskoj. Sve to omogućuje nam projektiranje i izgradnju naprednih ratnih plovila, uključujući i podmornice.

SKY-WATCH

STAND 119

Øster allé 6F

Phone: +45 4243 8368
www.sky-watch.com

Founded in 2009, Sky-Watch develops, manufactures, and sells combat-proven UAS solutions. Our journey began with a vision to provide troops with tailored technology solutions that play a crucial role in contemporary military operations. Our RQ-35 Heidrun mini Fixed Wing UAS system is designed to meet the dynamic needs of today's asymmetrical combat operations.

The RQ-35 Heidrun is a fully autonomous, fixed-wing, mini-UAV for low-altitude reconnaissance and target acquisition, ideal for collecting immediate sensor data from any mission-critical area.

The RQ-35 Heidrun is a small, portable, and hand-launched ISR solution, capable of generating reliable and high-precision real-time data and situational awareness for combat ground forces.

The RQ-35 Heidrun platform is intended as an organic company-level or special operations force decision support tool, able to deploy in congested environments without access to GNSS, with a minimum footprint in the air and on the ground.

Sky-Watch is at the forefront of defense technology and specializes in fixed-wing mini-UAS systems. The RQ-35 Heidrun is engineered for critical ISR missions, delivering unmatched reliability even in the event of electronic warfare or GPS-denied environments.

Trusted by the Armed Forces of Ukraine since March 2022, the Heidrun RQ-35 is a testament to our commitment to innovation and reliability in the most demanding operational scenarios.

www.thalesgroup.com

Thales is a global leader in advanced technologies for defense, security, aerospace, cyber & digital. The Group has over 83,000 employees in 68 countries, and generated sales of €20.6 billion.

Thales designs and delivers innovative solutions that help armed forces and governments to carry out their critical missions and maintain security, tactical superiority and strategic independence in the face of any type of threat.

50+ countries rely on Thales' solutions to protect their population and territorial integrity.

Cutting-edge solutions showcased at ASDA 2025:

- For Land Forces especially: collaborative artillery applications.
- For Air Forces: Ground to Air Network and equipment for fixed and rotating wing aircrafts.
- For Naval Forces: latest solutions for Mine Warfare and Anti-Submarine Warfare.

THREOD SYSTEMS AS

STAND 705

Kaare tee 3, Viimsi vald
74010 Viimsi | ESTONIA

Phone: +372 5331 2479

Threod Systems is a developer and producer of Unmanned Aircraft Systems (UAS) which includes both fixed-wing and VTOL Unmanned Aerial Vehicles (UAV), Electro-Optic payloads for intelligence and surveillance applications as well as many other critical sub-systems required to successfully operate UAVs.

Our solutions are actively deployed by over 20 militaries worldwide, including eight NATO members. We provide highly efficient, combat-proven, and EW-resilient solutions for ISR and ISTAR missions, designed to withstand the most challenging modern combat environments.

Threod Systems je razvojni inženjer i proizvođač sustava bespilotnih letjelica (UAS), koji uključuju bespilotne zrakoplove (UAV) s fiksnim krilima i VTOL (vertikalno polijetanje i slijetanje), elektro-optičke senzore za obavještajne i nadzorne primjene, kao i mnoge druge ključne podsustave potrebne za uspješno upravljanje bespilotnim letjelicama.

Naša rješenja aktivno koriste više od 20 vojski širom svijeta, uključujući osam članica NATO-a. Pružamo visokoučinkovita, borbena dokazana i elektroničkom ratovanju otporna rješenja za ISR i ISTAR misije, dizajnirana za najzahtjevnije uvjete modernog bojišta.

Aeronautical Technical Centre J.S.C. is a company fully owned by the Republic of Croatia, with a long-standing tradition. ATC is a certified EASA Part-145 organization.

The company specializes in the maintenance of military and civilian aircraft, as well as inspections of aircraft, engines, and systems.

Our expertise includes aircraft modifications, NDT inspections, aircraft structural repairs and the production of aircraft parts. The Aeronautical Technical Centre continuously invests in the development of new capabilities, training and certification.

Through a combination of experience, knowledge, and innovation, ATC ensures high-quality services, confirming its position as a leader in this part of Europe.

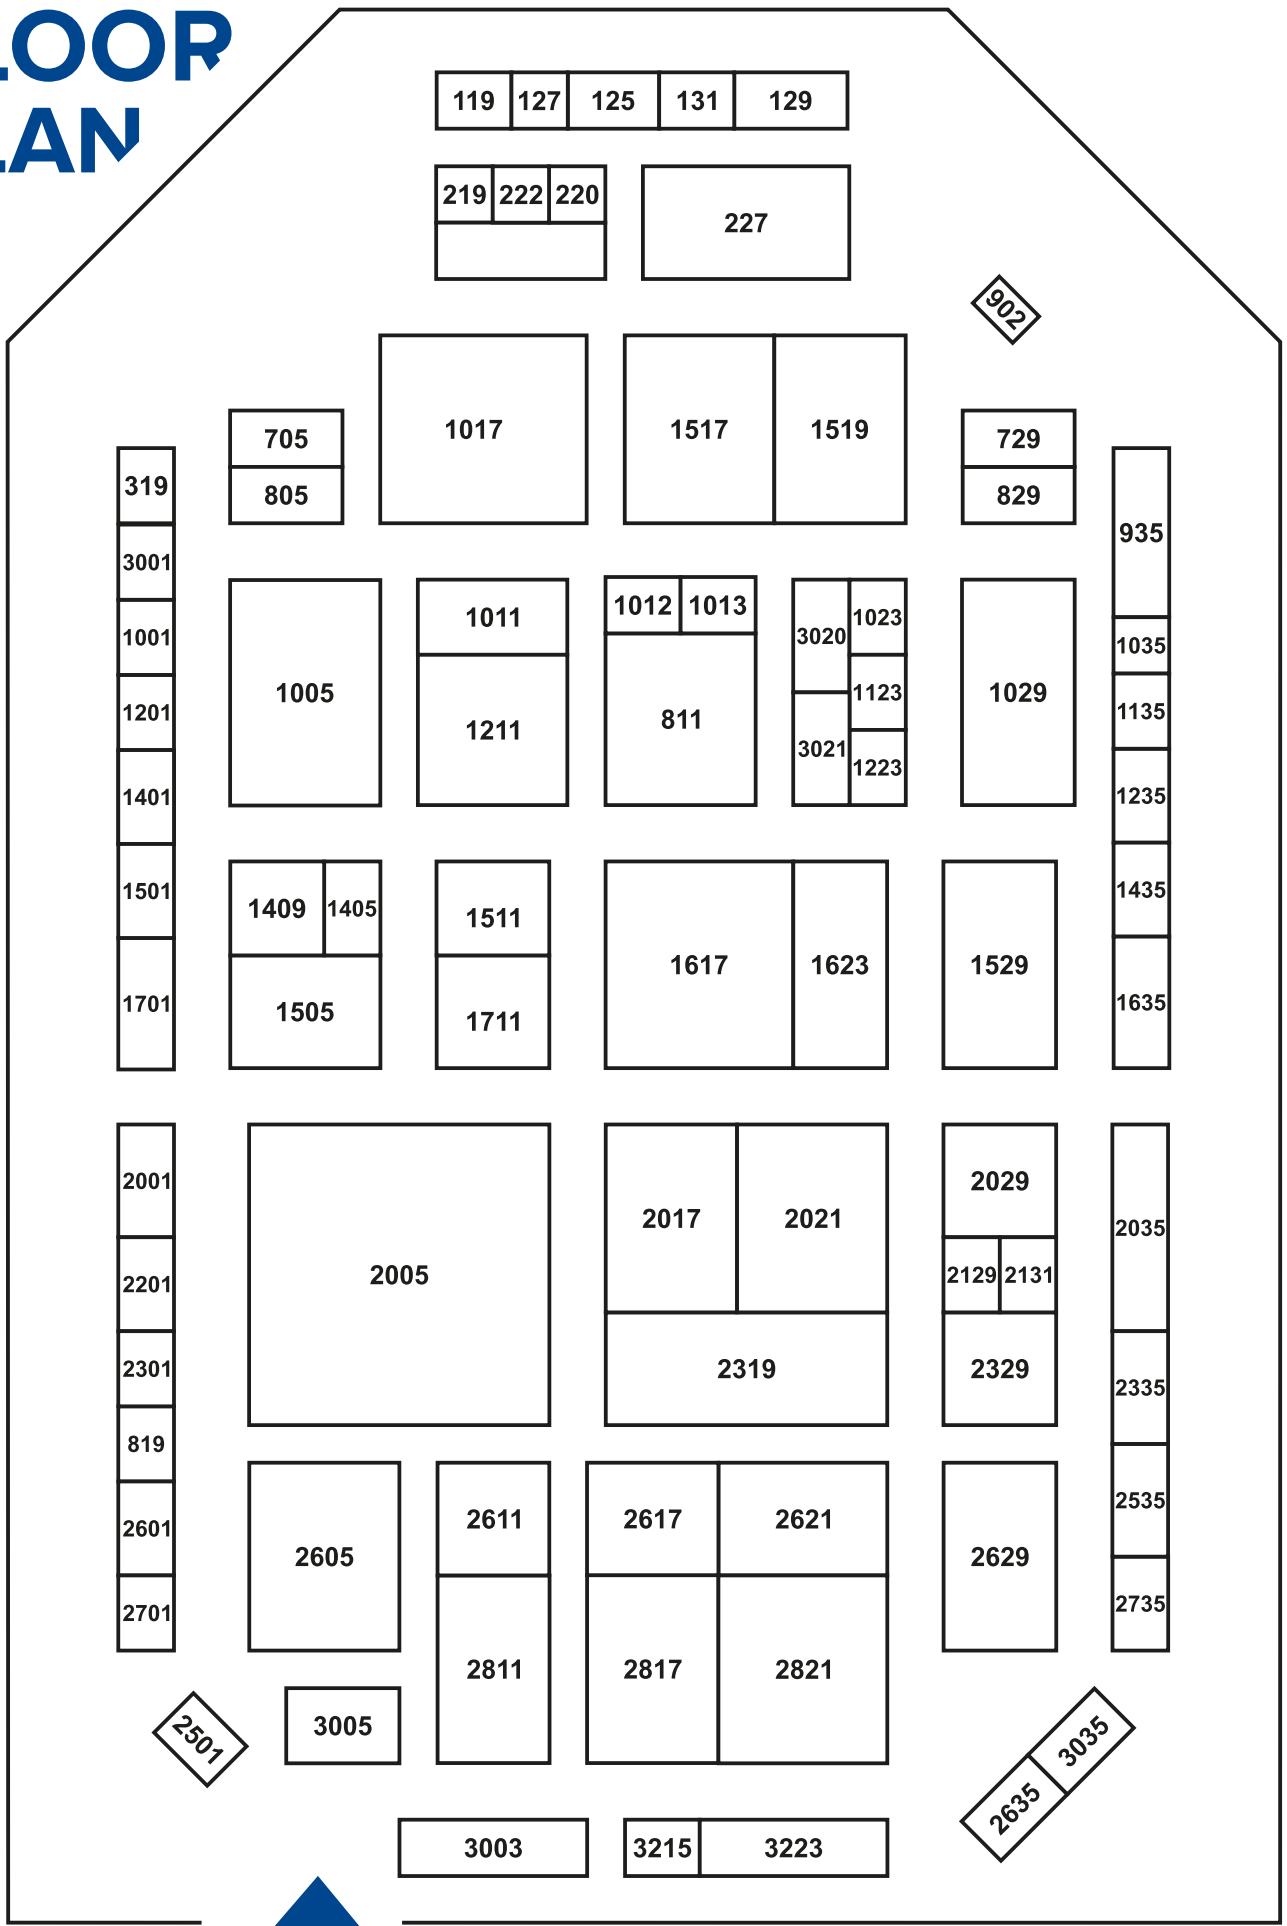

Zrakoplovno-tehnički centar d.d. je trgovačko društvo u 100 % vlasništvu Republike Hrvatske, s dugogodišnjom tradicijom i stručnošću. ZTC d.d. je certificirana EASA Part-145 organizacija.

Tvrtka je specijalizirana za održavanje vojnih i civilnih zrakoplova te preglede zrakoplova, motora i sustava.

Naša stručnost obuhvaća modifikacije i modernizacije zrakoplova, NDT ispitivanja, popravke strukture zrakoplova te proizvodnju visokokvalitetnih dijelova za zrakoplove. Zrakoplovno-tehnički centar kontinuirano ulaže u razvoj novih sposobnosti, osposobljavanje i certificiranje svojih stručnjaka te modernizaciju svojih procesa, s ciljem održavanja reputacije pouzdanog partnera za održavanje zrakoplova.

Kombinacijom iskustva, znanja i inovacija, ZTC osigurava visoku kvalitetu usluga, čime potvrđuje poziciju lidera u ovom dijelu Europe.
